

Boxing Petition To Come Before SAC Tonight

A petition asking the administration to review the facts and to continue intercollegiate boxing in Cal Poly's athletic program will be presented to Student Affairs Council tonight when the group meets at 7 in library 114.

The petition will be presented by the "Committee for Intercollegiate Boxing," a group of interested students and faculty members who organized last week when El Mustang announced that the administration is considering dropping boxing from the athletic program. The committee wants SAC to present the petition to the administration sometime later this week.

It was reported late Sunday afternoon that approximately 1500 students had signed the petition.

Dean of Students Everett Chandler May 18 said that, "Over a period of four years, boxers take a number of pin-pointed, hemorrhaging hits which

could easily lead to serious and permanent injury."

According to the students who are circulating the petition however, "No serious injury has resulted in boxing at Cal Poly. In national survey, the National Board of Underwriters rated boxing seventh in hazardous sports and football number one. We ask if boxing is being eliminated because of the danger of injury, then why are football and other similar heavy contact sports unaffected?"

The committee for Intercollegiate Boxing met late Friday afternoon and discussed the issue. ASB President, Lee Foreman, was there and said that he does not feel that those who favor boxing would be up against a brick wall in presenting their views to the administration. He did say, however, that strong arguments for the sport will probably be needed. Foreman

added, SAC's experience in attempting to obtain official recognition for the Parachute club has proven that the administration investigates what it considers to be hazardous sports extremely thoroughly before forming an opinion.

Dr. Hugh E. Law, economics instructor and former collegiate boxer, said, he feels boxing has received a "black eye" because of tendency in recent years to stress professionalism rather than amateurism.

Many members of the boxing team felt that this is true and that coaches from other schools and judges and referees who are not completely acquainted with boxing rules are at fault.

The petition that is being circulated points out that, although boxing is a minor sport here it, "brings in a substantial amount of revenue when com-

pared to other minor sports and some major ones."

The paper also indicated that, like other sports, "boxing provides the competitor with mental, physical and moral discipline. It also results in bringing about good publicity for the college through sports."

An article published earlier this year in El Mustang stated that the Big Ten Conference recently gave up boxing. The article also noted that the California Collegiate Boxing Conference, of which Cal Poly is a member, is the only remaining such conference in the nation.

Less than 10 years ago, virtually every major college in the country supported boxing teams, but due to public pressure, they have dropped the sport.

ASB President Lee Foreman, will meet with Dean of the College Dr. Dale W. Andrews to discuss the administration's proposed action Thursday.

Just Drop One Word

Special Vote Set Next Week For SAC Constitution Change

In order to give each of the four instructional divisional councils equal representation on Student Affairs Council next year, SAC Thursday night called for a special student body election to amend a part of the ASB Constitution. The election will be held one week from today—Tuesday, June 5.

SAC proposed amending Article IV Section II part B of the ASB Constitution, which presently states that SAC shall have "three representatives from each of the three instructional divisional councils." If the student body gives a favorable vote to the change, the passage will read, "three representatives from each of the instructional divisional councils."

In essence the amendment would allow the Associated Student Body to take the same action the administration took late last summer when it divided the former Arts and Sciences Division into two divisions—Applied Arts and Applied Sciences. At present the two divisions are not regarded as being separate in ASB government.

It was SAC's feeling that stu-

dents in each of the four instructional divisions should have equal representation in their student government.

The special election will be held Tuesday, June 5, from 8 a.m. to 4 p.m. Polls will be located on the cafeteria patio and near the post office.

The change in the wording of the Constitution is not expected to meet with much controversy, because it amounts merely to the recognizing of four divisions instead of three.

ASB President, Lee Foreman, emphasized that this change in the Constitution is not part of the ASB government reorganization plan presently being discussed by SAC. Rather, he said the change would give students in all divisions and equal voice when action is taken on the plan early next year.

Although El Mustang will not be published next week (this is the last issue of the paper for Spring Quarter), students will be informed of results of the election by a special mimeographed paper to be released by the ASB office Wednesday, June 6.

Prop. 3 Holds Key To Poly Growth; SAC Endorses it

A request by Building Coordinator Douglas Gerard that Student Affairs Council endorse Proposition No. 3 in the coming state primary election was the main item of business at last Thursday's meeting. Following discussion and a motion by Leonard DeRutter, the council voted unanimously to endorse the proposition.

Proposition 3 concerns a \$270 million state construction bond, of which 76 per cent will be spent in the fields of higher education. From this amount, approximately \$2 million would be expended at Cal Poly, San Luis Obispo, in the forms of:

1. Equipment for the new Administration Building. \$130,500
2. Equipment for the new West Engineering Building. 451,900
3. Swimming pool complex behind men's gym. 200,000
4. Working drawings for new residence halls. 51,000
5. Miscellaneous site development. 430,000
6. Parking lots for 400 cars. 158,000
7. Remodeling of the present Administration Building. 150,000
8. Equipment for East Engineering Building. 376,000

Prior to this discussion, Vito Dollente reported on the Foreign Student Council. After attending a meeting of the group, Dollente said he was "very impressed" with its organization. The Foreign Student Council feels that it should be represented on Student Affairs Council, while SAC is of the opinion that the foreign students aren't organized quite well enough to warrant such representation at the present time.

Recognition of the Parachute Club was next on the agenda as Darcy Staggs, President of the group, again pleaded his case. Regarding an article written in the May 28 edition of El Mustang, ASB President Lee Foreman said, "The Advisory Commission did not refuse recommendation to the administration that the by-laws of the Parachute Club be approved."

The Advisory Commission is an arbitrating group; therefore, it cannot make recommendations. It was reiterated that the college administration still will not approve or recognize the club at the present time unless new information is presented.

Following much discussion, it was moved by Gil Jones to set up a committee to study the Parachute Club's petition for recognition. The motion was approved, and Sam Burke, and Joe Zallen volunteered to form a committee next year for this purpose.

Larry Hubbel, chairman of the Residence Hall Council, presented the council's ideas on future representation of campus-housed students. He said that the people living on-campus "represent 40 per cent of the student body." Hubbel claims that on-campus people should be represented on SAC because of the communication problem that now exists between the two bodies.

Chancellor to be Speaker At Poly's Commencement

More than 750 graduates and their guests will hear an address by Dr. Glenn S. Dumke, Chancellor of the California State college system, at Cal Poly's 56th annual commencement, June 16, in Mustang stadium.

Cal Poly President Julian A. McPhee announced Dumke as the principal speaker for graduation exercises which begin at 1:30 this year instead of 2 p.m.

GLENN S. DUMKE

The title of Dr. Dumke's Commencement address was not made known at press time.

Formerly president of San Francisco State College, Dr. Dumke was appointed chancellor early in April. Prior to his appointment he was vice-chancellor for academic affairs in the state college system.

Dumke's last visit to the campus was January 19 for the state college system Board of Trustees meeting.

The Chancellor was principal representative of the state colleges which recommended major education in 1960. The team also in part provided an independent governing on the Master Plan Survey team board for California's state colleges. The master plan group defined coordination, expansion and differentiation of functions for colleges and universities in the state.

Born in Green Bay, Wisconsin, Dumke moved to California in the 1920's. He is a graduate of Occidental College and University of California at Los Angeles.

The Chancellor also heads the Western College Association Accreditation Commission and is a member of the Association of American Colleges National Accreditation Commission. He has several books on California history and was an alternate delegate to both the 1948 and 1952 Republican national conventions.

Larger El Mustang Slated for Next Year

"A new panoramic view of campus activities, happenings and events will be viewed in El Mustang beginning Fall Quarter," according to Jim Grundman, Fall editor of the student newspaper.

This new view is promised by the introduction and budgeting by SAC, of an eight-column wide, 21 inch long edition of the campus newspaper. This is the size of professional newspapers and exactly twice the size of the present El Mustang.

Grundman, a 22-year-old Community Journalism Senior from Rio Dell, has been selected by the Board of Publications to head the paper next year.

Grundman, previous holder of several editorial positions on the present El Mustang, makes this comment about the "new" paper.

"With this enlarged version of the paper, I believe that we will be able to better represent the many facets of our growing campus and its groups, and fill the many inadequacies of our present size paper."

The "new" paper promises partial world coverage, roving reporter column, club news, SAC column, reports from other colleges, and cartoons.

Publication days for the paper will remain the same, Tuesdays and Fridays of each week.

OFFICIAL NOTICE OF SPECIAL ELECTION

All regular students are hereby notified of a special election and are encouraged to exercise their voting privilege.

Place: The San Luis Obispo Campus of California State Polytechnic College.

Issue: "Shall Article IV Section II Part B of the Associated Student Body Constitution, which reads, "(SAC shall have) three representatives from each of the three Instructional Divisional Councils," be changed to read, "three representatives from each of the Instructional Divisional Councils?"

Location: Two polling places will be open during the official election period:
1. Near the Snack Bar.
2. Near Post Office.

Time: Tuesday, June 5, 1962 8:00 a.m. to 4:00 p.m.

Blue Key Initiates College Members

Campus chapter of Blue Key, national honor service fraternity, tapped 25 students last week, President Jim Clark announces.

Membership in the organization is open only to men students who have attained higher grades than the men's college average and who are outstanding in at least three co-curricular activities.

The 25, who became members at a special initiation banquet last night in the Staff Dining hall, include Pat Hall, David Burton, James Cary, David Cox, Joe Crosslin, Vic Dollente, Bill Dunn, Warren Jones, Roger Kennedy, Roy Killgore, Thomas Klipp, Donald Lovensaler, James McLain, Emmitt Mundy, Mike Neiggemann, Paul Orselli, Jerry Potter, Stephan

BOP Positions Open

Applications are now being accepted for the positions of Board of Publications Chairman and Circulation Manager of El Mustang for the 1962-63 year, according to Penny Gardner, current BOP chairman.

Students interested in applying for the positions should contact Miss Gardner in room 226 of the Graphic Arts Building before Monday, June 4, at 4 p.m.

Price, Gary Rinkenberger, Ted Shugan, Don Struble, Wilhelm Teal, Mike Varner, Nick Watry, and Robert Wolf.

Blue Key, which does much service work for the campus, is currently heading a publicity campaign to get students and staff to vote for Proposition Three, the \$270 million state construction bond issue which will come before California voters in the June 5 primary election.

CU Dramatists List Plays for Next Year

Sophocles' "Antigone" is scheduled to be given next Fall quarter, "The Rainmaker" by N. Richard Nash, in Winter quarter and "State Fair" by Phil Stong, in the Spring. These three-act plays are only a few of the activities being planned for next year by the College Union Drama committee.

Other activities include having entertainment at all meetings, and participating in various events with other colleges.

At a recent election held by the committee, Leslie Guske was elected chairman, Don Shepley as vice chairman, and Judy Mabane as secretary. The remaining offices are still open and will be filled next Fall.

Dumke OK's Sabbaticals For Seven Instructors

Seven members of the Cal Poly faculty have had sabbatical leaves approved by State College Chancellor Glenn S. Dumke.

Those granted leaves include John Applegate of the Biological Sciences department, half-year at full pay; James Anderson of the Mechanical Engineering department, half-year at full pay; Richard Birkett of the Animal Husbandry department, one year at half-pay; Ray Holt of the Physical Science department, half-year at full pay; Loren Nicholson of the Technical Journalism department, half-year at full pay; Glen Rich of the Agricultural Engineering department, half-year at full pay; and Ralph Vorhies of the Crops department, one year at half pay.

CRITIC'S CORNER

400 See Brilliant Show As Band Stages Concert

BY BETSY KINGMAN

Attracting nearly 400 culture-minded students and faculty, Cal Poly's second annual Symphonic Band Concert was presented Friday in the Little Theater.

Director George C. Beatie and the band opened the program with "March of the Olympians," the theme written for the 1961 Olympics.

"The First Suite in E Flat," done in three parts, was played in fine style by the band. A complex scherzo and mysterious section in "Introduction and Scherzo," fulfilled the band's contemporary piece "obligation."

"Inglelina," a light, rapid, Italian march, was next. It was, as Master of Ceremonies, Chuck Stefanetti explained, quite a contrast to the typical American "foot in carburetor type" march.

Ending the first half of the program, Les Herven, sophomore Aeronautical Engineering major from Roseville presented a sparkling trumpet solo, "La Virginia Marcarena."

Beginning the second portion of the program, Ken Fitzhugh, sophomore Electronic Engineering major from Del Mar, and Clifford Plopper, sophomore Mathematics major from Burbank, performed on the piano and flute, respectively, offering a melodious presentation of "Fantasy for Flute and Piano."

A Spanish march, "Amparito Roca," was done as another contrast to the American march.

"Flute Cocktail," with Nancy Mitchell, freshman Home Economics major from Sunnyvale; Plopper; and Kay Thorne, junior English major from San Luis Obispo, on flutes with band accompaniment, was the next number done in high style.

"Midnight Fire Alarm," described by Stefanetti as the "typical" American march was next. Complete with siren, it was brilliantly done.

A sparkling rendition of the theme from the Broadway hit,

Senior Wins Prizes For Aero-Project

Dennis Riddle, a senior in Aeronautical Engineering, walked off with two first prizes worth \$200 at the Student Institute of Aero Space Science Western Regional Conferences held in Los Angeles on May 10, 11 and 12.

Riddle presented a technical paper and oral recitation on the preliminary design of a ground effects machine using scale models. The presentation was placed in competition with the works of 11 other students attending the meet.

Riddle's work was judged the top undergraduate paper, which carried with it a \$100 prize. He also was awarded an additional \$100 for the best presentation technique. This marks the first time a Cal Poly student has won both awards.

Two other Cal Poly IAS members gave presentations but failed to place. Darcy Staggs reported on the integration of a ducted fan motor with a boundary layer control wing. Torrey Larsen's presentation was on a helicopter yaw indicator.

Riddle was one of five aeronautical engineering seniors who built the full size ground effects machine as a senior project. The machine made its initial flights during Poly Royal, turning out to be the highlight of the aero display. The construction of two operational scale models precluded the full scale machine.

The regional conference attracted students from collegiate branches of the IAS throughout the western states.

Riddle's paper will be submitted for the national IAS student competition.

BASIE PLAYS . . . Count Basie and his world renowned 14-piece band will be on campus tomorrow evening for the Spring Prom, from 9 p.m. until 1 a.m. in the Men's Gym. Tickets can still be obtained at the ASB Office or at the door for \$1 with ASB cards and \$2 without.

Court Upholds Parking Law

A unanimous decision overruling a lower court injunction about parking fees being unauthorized by law was announced earlier this week by the Third District Court of Appeals.

John Linnell, a member of the Sacramento State College faculty contended that fees were not authorized by law, and therefore they were a tax.

"Westside Story," was next on the program.

The program ended on a high note after an introduction of band officers, with a collection of tunes portraying the time and mood of the Civil War, the long-to-be-remembered "American Civil War Fantasy."

Typical comments from the audience as they were leaving included, "Cal Poly should have a music major. . . should be included in Home Concert. . . better than the Home Concert!"

GREYHOUND

'Old Timers' Dump 'Green Machine' 15-7 in Spring Grid Tilt

By DAVE JONES, Staff Writer

The Mustang "Green Machine" never got into gear in the second annual Alumni Varsity football game Saturday night in Mustang Stadium, as Carl Bowser and company ground out a 15-7 victory over the varsity.

Bowser, who was co-coach of the alumni squad, pounded his way through the Mustang line all evening from his fullback slot, scoring the first touchdown and making needed yardage on several key fourth down plays.

The hard-nosed alumni squad reversed last season's 13-6 varsity victory by dominating both offensive and defensive play. The "old timers" went for 15 first downs while holding the Mustangs

to eight. The alumni defense held the Mustang attack at bay 90 per cent of the time as the front line, led by Gerald James, stymied the ground attack and put constant pressure on the Mustang QBs when they attempted to pass.

Poly quarterbacks Dick McBride and Stan Reynolds were unable to complete a pass

until the third period. Overall they completed four of nine attempts while the Alumni hit on six of 12 passes.

The big difference in the game had to be the running attack of the alumni. Carl Bowser pounded the front line time and again, while Ernie Zampese, Fred Ford and Roger Kelly skirted the ends for sizeable gains. The Mustangs stuck to the ground primarily but their attack never jelled.

Jim Fahay, who came in for Lewis, was the one bright spot in the Mustang picture. Fahay broke away for a 39 yard gallop, setting up the varsity's only touchdown and made several other key gains.

The varsity won the opening toss and elected to receive the kickoff. Paul Lewis took Gerald James' kick and returned it to the 31 yard-line before being stopped by Fred Brown. Dick McBride opened at QB, getting the nod over Reynolds. He led the Mustangs on their first series of plays that ended in a fumble by Lewis, the first of many during the game. The Mustangs promptly got the ball back via the same route but gave it up again on another fumble.

The alumni took the ball and started to march down the field with QB Ted Tollner at the reins. However several plays into the series Tollner dropped back to pass and was hit by several on-rushing Mustangs. Tollner suffered a fractured wrist in the pileup and was taken to the hospital with the game's only injury.

Tom Klosterman replaced Tollner at QB and engineered the first scoring drive of the evening. The alumni drew blood when Bowser culminated the drive by blasting seven yards into the end zone for the TD. The attempted P.A.T. was no good and the score stood at 6-0 as the first quarter ended.

The second quarter saw the alumni gain ball control. The varsity stopped two scoring drives on pass interceptions by Hill Brown and Roy Schlabba, but couldn't score themselves. McBride moved the Mustangs to the four yard line but ran out of downs before he could go in for the TD. The half ended at 6-0 alumni.

The varsity showed signs of life as the second half got under way. Stan Reynolds launched the Mustangs on their only scoring drive of the night. Fahay set up the score with his 39-yard romp to the Alumni 16 yardline. A couple plays later halfback Jim Walker gathered in a swing pass from Reynolds and galloped into the endzone untouched. Jim Fahay kicked the P.A.T., giving the Mustangs the lead, 7-6.

Bowser took the ensuing kickoff and returned it to his own 43. The Alumni launched a drive which ended on the varsity 14, when Mustang guard Bob Mattes recovered the loose pigskin. The third quarter ended 7-6 varsity.

After a respectable third quarter, the real fell in on the Mustangs. On the first play from scrimmage, Reynolds fumbled and Darwin McGill recovered. The alumni weren't able to move and lost the ball on downs to the varsity.

After being held for three downs, QB Klosterman sneaked over from a half yard out. James converted the P.A.T., putting the game out of reach at 15-7. The Mustangs weren't able to muster another drive.

Soil Science Majors Wisconsin Bound

Three Soil Science majors will begin summer studies at the University of Wisconsin on scholarships to complete graduate work for their Ph.D. degrees in Soil Science.

David Ashby of Pasadena, came to Cal Poly in 1958 and has been awarded the Leopolds Edward Wrasse scholarship three times and the Sears Roebuck Foundation scholarship twice.

Al Ludwick of El Cajon has received the Elbridge A. Stewart scholarship by the Carnation Company for his four years at Cal Poly. He also received the Wrasse scholarship.

Ludwick is chairman of the Student Chapter of the Soil Conservation Society of America and is listed in "Who's Who in American Colleges." He is also a member of Alpha Zeta, honorary agricultural fraternity.

Ray Wildung of Van Nuys has attended Cal Poly for four years, received the Wrasse and Sears

Roebuck Foundation scholarships. He was vice chairman of the Soil Club this year and a member of Alpha Zeta. Wildung was also a Soil Department lab assistant for two years.

Ashby and Ludwick both received scholarships for graduate work from the University of Wisconsin, and Wildung received a Research Grant from the National Science Foundation.

Logan Carter Named Chairman Of Soil Conservation Society

Logan S. Carter, Jr. of San Luis Obispo is the new chairman of the Cal Poly Student Chapter of the Soil Conservation Society of America.

Other officers are: Philip J. Hartman of San Luis Obispo, vice chairman; Richard O. Hanes of Culver City, secretary-treasurer; and Lee R. Stephenson of Round Mt., reporter.

TILL WE MEET AGAIN

This is the final column of my eighth year of writing for the makers of Marlboro Cigarettes, and this year, as in every preceding year, when I come to the last column of the season, I come to a problem.

My contract with the makers of Marlboro calls for me to write a humor column and, truly, I do the best I can—all things considered, I am not, I should explain, a jolly man by nature. Why should I be? First of all, I am shorter than everybody. Second, there are moths in my cashmere jacket. Third, I work in television.

All the same, when it comes time to write this column, I light a good Marlboro Cigarette, put aside my trauma, and try with all the strength in my tiny body to make some jokes. Sometimes it works better than others, but on the last column of the year, it just flatly doesn't work at all.

Even in the very beginning this was true—and that, you will recall, was eight years ago when I was relatively young and strong and had not yet developed that nasty knock in my transmission. Well so I remember sitting down to write the final column of my first year. Day followed barren day, and not a yock, not a huff, not a singer did I produce. I was about to give up humor and take a job selling mechanical dogs when all of a sudden, in a blinding flash, I realized why I couldn't think of any jokes!

I leapt up from my typewriter and ran as fast as my little fat legs would carry me to the makers of Marlboro Cigarettes, and I tugged my forelock, and I said, "Sir, I am well aware that you have engaged me to write a humor column, but today, as I approach the final column of the season, I am far too misty to be funny, for the final column of the season is, after all, a leave-taking, and when I think of saying goodbye to my audience—the sweetest audience any columnist ever had—the college students of America—wonderful human beings, every man and

Wise but kindly—astute but compassionate

woman of them—wise but kindly—astute but compassionate—perspicacious but forbearing—when, sir, I think of saying goodbye to such an audience, I am too shook up even to consider levity, and so I ask you, sir, to let me, in the final column of the year, forego humor and instead write a simple, dignified, straightforward farewell."

Then I took out my handkerchief, wiped my eyes, nose, and throat and waited for a reply from the makers of Marlboro.

They sat around the polished board room table, the makers, their handsome brows knit in concentration, puffing thoughtfully on the Marlboros in their tattooed hands. At length they spoke. "Yes," they said simply.

I never doubted they would say yes. People who make a cigarette as good as Marlboro must themselves be good. People who lavish such care on blending tobaccos as mild and flavorful, on devising a filter so clean and white, on boxing a flip-top box so flip-top, on packing a soft pack so soft—people like that are one hundred percent with me!

And so from that day forward, the final column of the year—including the one you are, I devoutly hope, now reading—makes no attempt to be funny, but is instead a simple thank you and au revoir.

Thank you and au revoir, makers of Marlboro. The memory of our eight years together will remain ever fresh in my heart, and I would like to state for all the world to hear that if you want me back again next year, I shall expect a substantial raise in salary.

Thank you and au revoir, college students of America. May good luck attend all your ventures. Stay well. Stay happy. Stay loose.

Small Max has said it all. We, the makers of Marlboro Cigarettes, can only add a heartfelt second chorus: Stay well. Stay happy. Stay loose.

OUTSTANDING WOMEN STUDENTS . . . Diane Oberholser, freshman biological science major from San Luis Obispo; Libby Hatch, sophomore Home Economics major from L.A. Canada; Toni Kelley, junior Biological Science major from Long Beach; and Mary Fran Howell, senior Technical Journalism major from Millville, were named the outstanding women in their respective classes last week by the Cal Poly Women's Club. The pretty coeds will divide a \$200 scholarship which they will receive at the Spring Awards Banquet, June 10. The girls were judged on their grade point average and participation in co-curricular activities. (Reische photo)

Professor Gamow To Speak Tonight

"Breaking the Genetic Code" will be the topic of a talk by Professor George Gamow, noted physicist and author in the Little Theater at 8 tonight. Sponsored by the Sigma Xi Science Club and the Cal Poly Honor Society in cooperation with the college library, admission is free. Several of Dr. Gamow's books are now on display in the library, including "Puzzle Math" and "Mr. Thomas in Wonderland". Both are physics books for children. A biographical sketch of Gamow's life is also included in the 12-book display.

Two Former AID Students Returning For Further Studies

Two former participants in the State Department's Agency for International Development (AID) project plan to return to Cal Poly to further their studies.

Julio Galdames of Los Andes, Chile, a former Animal Husbandry major, spent two quarters at Cal Poly in 1960 and now operates a farm that includes 8,000 laying hens, a 100-acre peach orchard, and 100 acres of hybrid sorghum. He is vice president of the Agricultural Association of Chile and an instructor at Instituto Agrícola Pascual Barbulana.

The Pan American Union has granted Galdames a study scholarship, which he plans to use in September majoring in fruit production.

E.K. Gundasa of Ragama, Ceylon, attended Cal Poly in 1958 majoring in mechanized agriculture. He is presently in charge of a government factory which manufactures a rice seeding machine which he designed. On his return, Gundasa plans to study for a degree in mechanized agriculture.

Dance, Dinner, Commencement will Highlight 'Last Days' of Class of '62

By Carol Ann Rizzo

The graduating class of 1962 will dance to the melodic sounds of the Cal Poly Collegians at the Senior Ball, Friday, June 15, from 8:30 to 11:30 p.m. at the Madonna Inn.

The Ball is sponsored by the Alumni Association. Seniors and guests will not be charged an admission. Alex Madonna has established reduced rates on dinners which will be served on the second floor at \$3.00 per plate for the steak menu and \$2.75 for the fish dinner. Prices apply to all seniors,

their dates, and guests. Seniors wishing to make reservations must reply to senior class president Lee Paxton, Box 2155 by June 1.

Senior Breakfast

Saturday morning, June 16, at 8:00 the traditional senior breakfast will take place in the Student Dining Hall. All seniors are entitled to one free ticket and one ticket at \$1.50. After June 11, any number of tickets may be purchased at \$1.50 in the ASB office.

Commencement

Commencement ceremonies will begin at 1:30 p.m. Saturday, June 16, in the stadium.

El Corral

L&M gives you
MORE BODY
in the blend,
MORE FLAVOR
in the smoke,
MORE TASTE
through the filter.
It's the rich-flavor
leaf that does it!

**HERE'S HOW MEN
AND WOMEN AT
55 COLLEGES VOTED:**

Question	Yes	No
① Should we maintain our part in the nuclear arms race?	13% 87%	87% 13%
② How do you feel about fraternities?	61% 38%	38% 61%
③ What would convince you to switch to a different cigarette?	27% 72%	72% 27%

L&M's the filter cigarette for people who really like to smoke.
